The screenshot shows the phpMyAdmin interface for the 'assessment_db' database. The 'Nobel_win' table is selected. A SQL query is entered in the query box: `SELECT year, subject, winner FROM Nobel_win WHERE year = 1970;`. The results are displayed in a table with 3 rows and 3 columns: year, subject, and winner. The first row shows 1970, Physics, and Albert Stone. The second row shows 1970, Chemistry, and Marie Clark. The third row shows 1970, Literature, and Ivan Petrov.
